Message

I am glad to know that The Indian Community School Khaitan is publishing its Annual School Magazine 'ARCHIVE' showcasing the glorious journey through the school year. The Annual School Magazine is a vital component of the educational process since it displays students' ideas and ingenuity.

I sincerely hope that the students will take advantage of this opportunity to contribute to the school magazine in the best way possible and that readers will gain information and inspiration from the worthwhile pieces.

I wish all success to the team of Indian Community School Khaitan for the forthcoming magazine release!

Greetings,

As we stand on the threshold of a new beginning, it is with immense pride and joy that we extend our heartfelt congratulations to each one of you for the successful accomplishment of yet another academic year. The collective efforts of our students, dedicated parents, and committed staff have truly made this journey memorable and rewarding.

This year, the school takes great pleasure in presenting to you the latest edition of our annual magazine, "Archive," a cherished compilation that immortalizes the beautiful memories we have created together throughout the academic year. It is a testament to the vibrancy and diversity that defines our school community.

At ICSK, we firmly believe in nurturing not just academic excellence but also in fostering all-round development. Our commitment to this principle is reflected in the various activities we organize, such as the Arts Fest, sports events, special assemblies, and the celebration of national and cultural festivals. These endeavors provide students with holistic learning experiences that go beyond the confines of the classroom.

We are also delighted to share the news of our students' outstanding achievements in inter-school competitions, bringing honor and accolades to this institution. In line with our commitment to providing quality education, we are pleased to announce the successful expansion of the school by introducing the Cambridge Curriculum wing. There are other feathers in our cap like; upgrading of the infrastructure, producing excellent results for ACCA graduates and offering BBA and BCom classes to name a few while there are other ideas in the pipe line.

Finally, we look forward to continuously working with all our stakeholders in realizing our dreams. We are banking on strong partnerships with parents and our community. We value, celebrate and acknowledge this partnership as it has produced immense success in the past and look forward for it to do more in the future.

With our warmest regards,
BOARD OF TRUSTEES
The Indian Community School Kuwait.

FROM THE DESK OF PRINCIPAL
K.GANGADHAR SHIRSATH

Dear Respected Parents, and Valued Students,

As we bid farewell to another remarkable academic year, I find immense pleasure in applauding your collective achievements. This journey has been a symphony of success, orchestrated by the harmonious collaboration of our students, their supportive parents, and our dedicated staff. Our tribute to the passing year takes the form of “Archive,” our cherished magazine. Within its pages lie the captured echoes of our shared experiences, a testament to the vibrant tapestry that defines our school community. In our pursuit of holistic development, we embrace the philosophy that education extends beyond textbooks. The ‘Arts Fest,’ spirited sports events, special assemblies, and the vibrant celebration of national and cultural festivals showcase our commitment to nurturing well-rounded individuals.

The victories of our students in inter-school competitions stand as shining beacons, illuminating the excellence that resides within our school. Each accolade earned is a testament to the dedication and perseverance exhibited by our remarkable students. A significant milestone in our journey is the expansion of our school to introduce the Cambridge Curriculum wing. Affordability remains a cornerstone, ensuring that the benefits of quality education are accessible to all. The canvas of our offerings is set to broaden further with the imminent inclusion of Ed_Excel and Oxford curriculums. Celebrating success is not merely confined to academics. Our integrated curriculum has yielded exceptional results for ACCA graduates, and the introduction of BBA and BCom classes adds another dimension to our educational tapestry. Amidst this transformation, our infrastructure evolves continually. New building blocks and upgraded furniture symbolize our commitment to providing an enriching and conducive learning environment.

The heart of our educational ethos beats with the rhythm of values. Our unique ‘Pentagon of Values’ philosophy underscores the importance of environmental sensitivity, life skills, patriotism, innovations, and entrepreneurship, shaping the character and conscience of our students. A standing ovation is due for our editorial team, with special acknowledgment to the chief editor, Ms. Umme Fathima. Their unwavering dedication breathes life into the pages of “Archive.”

To our esteemed management, your steadfast support and motivation have been the wind beneath our wings, propelling us to new heights of success. As we stand at the threshold of the academic year 2024-25, I extend my heartfelt wishes to all. May this coming year be a canvas awaiting the strokes of success, growth, and fulfillment.

Warm regards,
K. Gangadhar Shirsath

An Epistle from Vice Principal **SUSHMEETA PRAKASH**

ICSK Khaitan is delighted to roll out 'Archives', the school magazine, for the academic year 2023-2024. 'Archives' is our school canvas, a splurge of hues blended with strokes of creativity that showcase our students' immense talent and artistic prowess. The kaleidoscopic displays in the magazine vividly capture the creativity and exuberance of our school activities. Flipping through the magazine, each page unfurls a new day at our school campus and the array of learning experiences that students are presented with.

We appreciate our students and teachers for the creative contributions that have adorned the pages of our esteemed school magazine. The commitment to the literary works, artworks, and other creative expressions featured in 'Archives' is commendable. Our students have poured their hearts and minds into crafting pieces. Whether it be a captivating short story, a thought-provoking poem, or a visually stunning piece of art, each contribution adds richness to the overall tapestry of our school's creative landscape. In the face of technological advancements, it's heartening to witness the genuine creativity emanating from our students. In a world where AI poses potential challenges, it is reassuring to know that the spark of originality and authenticity will always shine brighter, capturing human hearts and minds and resonating on a level that transcends algorithms and programming.

A special acknowledgement goes to our dedicated teachers, who have nurtured and encouraged our students' artistic endeavours. Your guidance and support have undoubtedly played a crucial role in shaping the creative talents. We appreciate your commitment.

The editorial team deserves commendation for their tireless efforts in curating and refining our magazine's content. Your attention to detail, keen editorial eye, and dedication to maintaining high standards have resulted in a publication we can all be proud of. To the students, boundless potential resides within each of you. We encourage each of you to continue exploring and honing your creative abilities.

Wishing you all continued success in your academic and creative pursuits.

Warm regards,
Sushmeeta Prakash

EDITORIAL MESSAGE

“Destiny is not a matter of chance, it is a matter of choice. It is not a thing to be waited for. It is a thing to be achieved.” Our School magazine mirrors a school-Its aims and objectives. It also highlights events, activities and academic prowess .

Archives 2023-24, provides a great platform for these kids to unleash their inner creativity and talent. Students contribute to it by writing articles, drawing pictures for the “art corner”, writing poetry and many more. I believe that these all are life skills which shape an individual’s personality. Academics is one part of life’s story but having and cultivating these interests and hobbies is equally important and acts as a stress buster. I can personally vouch for it because I myself love to sketch and paint and it acts as a major mood lifter for me.

I would like to thank the editorial team members who worked round the clock tirelessly and proactively to format and edit the content. Keep up the good work team!

I would like to thank our beloved Principal Sir Mr. Gangadhar Shirsath and our Vice Principal Ma’am Mrs. Sushmeeta for all support and guidance

Lastly, always remember that “there are no limits to what you can accomplish, except the limits you place on your own thinking.

Thank you

Khaitan Conducts

ORIENTATION

for LKG-Parents

‘Children are the world’s most valuable resource and the best creation of god, as they spread happiness in every season.’

ICSK Khaitan welcomed the parents of the tiny tots for the LKG orientation program on Saturday, April 8, 2023, conducted in the school auditorium. The objective of the program was to inform, inspire and guide the parents through this exciting first year of school.

The principal assured the parents complete focus and commitment of the staff at ICSK Khaitan towards their child’s development. He emphasized the role parents’ play in their child’s lives as well as the significance of education in a child’s overall development. It was followed by a presentation by Mrs. Lubna Asif, the school Counsellor/ PR. Along with providing parenting advice, she emphasized the importance of parenting, maintaining a schedule, encouraging children and creating a positive atmosphere at home for their overall grooming.

Mrs. Ebina P.R. further shared the details of the kindergarten curriculum and activities with the parents. She briefed the audience on the teaching methodology used and how it helps in the holistic development of the children.

After the program, the parents were confident in their choice to enroll their children at ICSK Khaitan, knowing that they would develop into self-sufficient and socially responsible adults who can add value to their own and other’s lives.

KINDERGARTEN ACTIVITIES

“Colours are the smiles of nature.”

This activity helps the kids to develop and understand the concept of colors. It helps to promote positivity and enthusiasm among children, the Kindergarten at ICSK Khaitan celebrated “Colour Week”. The celebration began with Red, symbolizing love; followed by Green, the colour of life and nature; Purple, the colour of creativity and wisdom; Pink, the colour of softness and kindness; Blue the colour of coolness and calmness; and finally Black and White, which adds a new dimension to any artwork

Kindergarten sports day

TINY TOTS CELEBRATE MOTHER'S DAY

"A mother is the most powerful influence in a child's life."

The day that recognizes the essence of a mother was celebrated in high spirits and merriment.

Keeping this bonding emotion in mind, Kindergarten of ICSK-Khaitan had a special celebration on mother's day. Teachers made an earnest effort to instill the importance of mother in a child's life through rhymes and video clippings..

The students of tiny tots got involved in making beautiful greeting cards to bring a smile on their beloved mother's face.

GANDHI JAYANTI

THE INVESTITURE OF A NEW LIGHT

“What is really needed to make democracy function is not knowledge of facts, but the right education”

This quote articulated by Mahatma Gandhi highlights the very essence of democracy that Indian Community School, Kuwait, Khaitan preserves and follows. This spirit of democracy was upheld in the senate elections 2023-24 which involved enthusiastic participation and intense campaigning.

The newly appointed cabinet voted on 16th April, was then invested into office in the “investiture ceremony” that was held on 4th may. The event took place in the school auditorium in the presence of an esteemed chief guest, Mr. Muath Al-Rashed, an extremely skilled professional shooter. The audience also consisted of our respected Principal, Vice Principal, teachers and all the lovely parents that had come to celebrate the investing of the senate.

The ceremony began with the senate members, the junior senate members, the IGCSE leaders and the house captains with their assistants and their prefects who marched proudly and energetically towards the auditorium bearing flags in their hands. The determined senate members were then commended with their respective badges. The team led by president Master Siddarth Sudeep and Vice President Master Umar Ashraf, were officially sworn into office with an oath of duty. As a silent promise to fulfil their responsibility, the senate members gathered to unite their voices in a harmonious melody as they sang “hum honge kamyab”. Following the core senate, the respective house prefects were also bestowed with their badges.

The ceremony came to a spectacular end as Master Siddarth Sudeep stepped forward to relay his speech of gratitude which was then followed by a motivational speech by the Principal, Mr.Gangadar Shirsath who finally concluded the assembly.

GREEN SCHOOL 2023-24

“Go Green” means a step forward towards promoting “Green Revolution” and to pursue knowledge and practices that can lead to more environmentally friendly and ecologically responsible decisions and lifestyles, which can help protect the environment and sustain its natural resources for current and future generations. The students of class LKG to class VIII welcomed this winter by making the campus green by joining hands together for a Green School Project.

The little toddlers of kindergarten, class I and II got beautiful saplings and beautified the school corridors. The students of class III to V planted tomato, chilies, spinach and brinjal in the school premises.

The enthusiast of class 6, class 7 and class 8 planted coriander, fenugreek, lettuce, tomato, spinach, potato and carrot in the school garden respectively. The harvest and productivity was put to display for kids to understand and feel the happiness of the hard work they had put in. It was a good learning experience for the students wherein they were also given the responsibility to take care of the plants and the environment around them. It was well planned and executed under the guidance of our incharge Mrs. Anjana Dhinoji.

K-RAYS

School exhibitions are exciting events that bring together students, teachers, and the wider community to showcase the creativity and innovation of young minds and ICSK Khaitan profoundly organised its K-Rays project for the academic year 2023–24. These exhibitions provide a platform for students to display their projects not only in science but also in different subjects such as English, French, Hindi, Social science etc. They discussed their topics and interacted with experts in the field, and inspired others to pursue the projects. Some of the exhibits include models of the solar system, working models of machines, models of the human body, and experiments on various scientific concepts. The exhibits are usually designed by students under the guidance of their teachers. Students were very interested and innovative in their creations during these K-Rays projects and some of them created projects in maths that included creating a game using the help of IT departments and making charts to explain the rules of the games. It was a captivating process for both the students and teachers where their exhibits were judged by three different judges. The students displayed and presented their projects gracefully and explained it to the judges and the parents who visited them. This created an interest among non-participants to participate in the upcoming year.

The exhibits were displayed class wise and all the teachers and students put forth their best effort to bring success. Students exhibited working models like smart irrigation systems using the current technology, still models of our Chandrayaan II and the young learners were very enthusiastic in presenting their projects beaming with intelligence and effort. The participating students were so happy with their creativity. The principal and the judges surveyed the exhibition and asked about the details from students who made different things and parents who visited the displayed models enjoyed the event.

The evening was filled with knowledge, creativity, fun and learning which marked the end of the exhibition. K-rays in charge team made sure that this exhibition had all its needs met by constantly taking care of the displays, making sure it was safe and secure until the end and selected different judges for various categories to imbibe fairness in all aspects. Thus this year's K-ray marked its place and set as a yardstick for the upcoming science events.

KHOJ-2023

THE TALENT HUNT FEST

The most awaited of all events that happen at the icsk khaitan, this one is the prominent and the most diverse activity: The khoj as the name itself means 'discovery', arts in various forms were discovered. beautiful creations from students of all ages came forward to participate, it was like an all under one - roof - talent show! It showcased many kinds of creative activities and competitions, right from elocution competitions, to speeches to extempore. It had everything right from creative writing to handwriting competitions and the list is endless!

The colourful display of origami, the young hands and minds behind the magnificent creations left everyone spellbound the paintings and drawings showed great young minds behind the awesome creativity. Dance performances, breaking all inhibitions, children who were known to be shy and didn't recognise their inner strengths earlier were seen to be boldly participating in all forms of events...various dance forms right from classical to retro to bollywood and hollywood it had it all! Then came the melodious singing performances of students who were at their best with their lovely rendition and the level of confidence was seemingly delightful. The spirit of participation was the theme of this khoj fest and what a display it was! magnificent and amazing, it was indeed a grand success!

THE KOOL -Summer Camp

The Indian Community School, Khaitan organised the KOOL KHAITAN Summer camp 2023 from June 10th to July 10th. The summer camp included Zumba, Dance, Art and crafts, Painting, Public speaking, Communication development and interpersonal skills . The inauguration of the summer camp was conducted on 8th June, 2023. The students gained knowledge in physical and mental development.

Every day was unique because the instructors and the team were engaged in various fun learning methodologies which resulted in the improvement of the students. Physical education teacher taught the basics of marching, the rules of a few games like football, volleyball, cricket, tennis etc. By the end of the week we celebrated cooking without fire and students made lemonade with minimal grocerie. An excursion was planned to Venue 56 Entertainment centre, and the students, they had golf, volleyball and football court along with playstations and bowling alley was the best part of the entertainment centre as most of the students appreciated it. The school organised the medical camp by inviting City Clinic Group, Kuwait, to conduct basic health checkups and free medical cards were issued in the students interest. The team celebrated fathers day by singing and dancing and they displayed the selfies of the students with their father's which enriched their bond.

The kool khaitan summer camp celebrated international yoga day with the help of our physical education teacher Mr. Sadeesh, followed by a field trip to the KDD factory and Faber castle's painting competition. They conducted love feast as the teachers and the students shared their food to express their love towards one another In the end of the final week, grand finale of the summer camp was scheduled and it was a glorious success. The chief guest of the event was the CEO of City clinic group Ms. Annie Valsan addressed the gathering with her presence and empowering speech. The grand finale came to an end after a 4 weeks of fun and learning in the summer camp!

KOOL - KHAITAN

TEACHERS' DAY

AND SELF-GOVERNANCE

This year's Teachers' Day celebration materialized by the students of ICSK Khaitan, has highlighted the great words of Dr. Sarvepalli Radhakrishnan, "True teachers are those who help us think for ourselves". Our teachers have always put in tremendous efforts to understand their students, and taken much care in moulding their character, thereby helping them grow into compassionate and socially responsible individuals.

The occasion was therefore, with full zeal and enthusiasm, celebrated by the students of ICSK Khaitan who organized special programs to remember their dear teachers and to show their reverence and gratitude for providing them with intellectual and moral guidance and support. The day began with a special live assembly through the school radio Khaitan Vani, followed by a grand special assembly held in the auditorium by the students of classes 11th and 12th.

On the other hand, the school senate had taken over the school, and duties were assigned to all students of the higher secondary grades to be student-teachers by stepping into the shoes of their teachers and take on teaching responsibilities for the day. The combined efforts of the students who organized the special assembly, as well as of the senate who meticulously maintained the school discipline in order to show the students appreciation towards the teacher's dedication and hard work, led to the success in celebration of Teachers' Day.

The day became memorable as all the efforts of the teachers were paid highly through the conscientious organization of all events of the day by the beloved students.

UNIVERSAL - ICSK ORIENTATION PROGRAMME 2023 SETS TONE FOR THE NEW ACADEMIC SESSION

UNIVERSAL –ICSK– The torchbearers of success!

Khaitan, 12 September 2023: The Indian Community School Khaitan, a well renowned educational institution which strives to create global citizens has reached the pinnacle of success with the initiation of Universal ICSK Study Centre, Khaitan, affiliated to University of Mysore, India, offers Bachelor of Commerce and Bachelor of Business Administration courses. The successful completion of two fruitful semesters was the outcome of sincere effort of many associated with the institution.

Students of Universal ICSK were applauded for the commendable result in the first semester examination, The orientation programme was organized on 11 September 2023 at the school auditorium to welcome the first semester students. The leadership team of ICSK, Khaitan, teaching faculties, parents and students were a part of the grand function. The Orientation was a fine expression of ICSK's continuous effort towards excellence in the field of higher education too.

World Book Day

“A book is the device to ignite Imagination, a dream that we can hold in our hands, a conversation to ourselves”. World Book Day is observed every year on April 23rd, to promote reading. ICSK celebrated World Book Day in our school. Students from Grade VII and VIII addressed the students of other classes with fantabulous messages stressing the importance of reading books. Students from Grade III were caught reading and an amazing rally by the students of Grade 3-8 dressed up by portraying characters from their favourite books. “A room without books is like a body without a soul”. Children showed high level of enthusiasm and engagement for reading books

Special Assemblies With Amazing Themes

Assembly of class I B & C on creativity

Assembly of class II E & II F Sharing & Caring

Class 3 Assembly Eat Healthy Be Healthy

“SAFE FOOD TODAY IS THE KEY TO HEALTHIER NATION TOMORROW”

Students of class 3 actively participated in the assembly on ‘Eat healthy be healthy’ held on 19 sept 2023.

Assembly began with the prayer that filled our hearts with humility and gratitude. Students spoke and sang on the importance of eating healthy. Assembly was concluded with vote of thanks given by Vice principal, Sushmita mam.

Children participated enthusiastically in the assembly and made it a great success.

Class 5 Assembly Value of Time

“TIME ISN’T THE MAIN THING, IT’S THE ONLY THING”

Students of class 5 happily participated in the assembly on ‘Value of Time’ held on 26 sept 2023.

Assembly began with an energetic welcome clap which was performed by Class 5 students followed by the blessings of Almighty. Following that, one after the other, there were marvelous mime performances addressing the importance of time. After that, adding flavor to the function, there was a fashion parade in the topic- Time Management. After this, the Principal appreciated the children for choosing the topic and for their wonderful performance.

Art Department

Miniature Painting

This Miniature Painting is inspired by the famous Kishangarh Miniature Painting called “Radha Bani Thani” by the Artist Nihal Chand. It is an amalgamation of Mughal and Rajput style.

The beauty of Radha in this painting has often been compared to Leonardo Da Vinci’s Monalisa.

Hence it is referred to as the ‘Indian Monalisa.’ The Government of India had issued a postal stamp on this Miniature Painting.

Unmasking the Mysteries: Venetian Mask

Unmasking the mysteries of Venetian mask history unveils a fascinating world of tradition, artistry, and cultural heritage. From their origins as tools for anonymity to their role in modern-day celebrations, Venetian masks have captured the imagination of people worldwide. As school students, delving into the history of Venetian masks enables us to appreciate the artistic skill, symbolism, and significance behind these intricate creations. By embracing the educational value of learning about Venetian mask history, we can gain a deeper understanding of our own cultural heritage and the diverse traditions that shape our world. So, let us embark on this journey of discovery and unmask the secrets that lie behind Venetian masks.

The history & significance of Venetian masks in Venetian culture

Venetian masks have captivated people around the world for centuries. These intricately designed masks are not only a symbol of the city of Venice but also hold a rich history and cultural significance. In this article, we will delve into the fascinating world of Venetian masks and explore their history, types, symbolism, and their role in popular culture. As a student, understanding the history of Venetian masks can open a whole new world of knowledge and appreciation for art, culture, and history. The history of Venetian masks dates to the 13th century when the city of Venice was a bustling hub of trade, art, and culture. The mask holds a deep-rooted significance in Venetian culture. They are a symbol of freedom, allowing individuals to express themselves without fear of judgment.

There are various types of Venetian masks, each with its own unique design and purpose. For example, Columbina mask is one of the most recognizable types of Venetian mask, which is smaller and more delicate, usually worn by women. It is often adorned with feathers, jewels, and other decorative elements, adding to its elegance and allure. The Carnival of Venice is undoubtedly the most famous festival associated with Venetian masks.

Making techniques

The art of mask making in Venice is a highly specialized craft that has been passed down through generations. Traditional mask makers, known as “mascherari,” use a combination of techniques and materials to create these

intricate works of art. The process begins with sculpting the mask’s shape using clay or plaster. Once the shape is finalized, the mask is then coated in papier-mâché and left to dry. Afterward, it is meticulously painted and adorned with various embellishments, such as feathers, ribbons, and gems. The result is a masterpiece that showcases the skill and creativity of the mask maker.

The educational value of learning about Venetian mask history

Studying the history of Venetian masks provides valuable educational opportunities for school students. It allows them to explore different aspects of art, history, and culture in an engaging and interactive manner. Learning about Venetian masks can foster creativity and critical thinking skills as students analyse the symbolism and design elements. Moreover, it promotes an appreciation for diverse cultures and traditions, encouraging tolerance and respect. By understanding the historical significance of Venetian masks, students can develop a broader perspective of the world and gain a deeper understanding of the importance of cultural heritage.

EXPLORING THE WARMTH AND COOLNESS OF COLORS

Warm colors like red and yellow are often associated with energy and stimulation, which can be beneficial for promoting attention and creativity in children. On the other hand, cool colors like blue and green are calming and may help to create a more relaxed environment, potentially aiding in concentration and relieving stress. However, individual responses can vary, and it's essential to consider personal preferences and the specific context in which the colors are used.

Warm colors such as red, orange and yellow, tend to have a stimulating effect on the human brain. They are associated with emotions like energy, passion and warmth. Exposure to warm colors can increase heart rate and evoke feelings of excitement and intensity. Cool colors such as blue, green and purple, generally have a calming and soothing effect on the human brain. These colors are associated with tranquility, relaxation and a sense of stability. Exposure to cool colors may lower heart rate and blood pressure, promoting a sense of calmness and reducing stress.

ICSK - KHAITAN Rejoices At Its Exemplary Republic Day Celebration

ICSK Khaitan celebrated India's 75th Republic Day on 28th January, 2024 in the school premises with a sense of great éclat, immense pride and patriotic zeal.

The prestigious programme commenced with a huge procession with the band troupe, marching towards the resplendent celebration ground. The celebration was initiated with islamic prayer, followed by the unfurling of the National Flag by the esteemed Principal Mr. Gangadhar Shirsath and the honourable chief guest Mr. Agnello Fernandes, accompanied by the fervourous singing of the Indian National Anthem.

The programme continued with the exhibition of cultural activities including dancing, singing and the extremely illuminating tableaux of various states and their heritage displayed by the students of the school.

The celebration ended with the melodious choir singing a fusion of patriotic songs that espoused different values of patriotism, unity, peace and liberty. With a salute to the motherland, the students of ICSK marked the closure of the ceremony.

DONATE LIFE; THE GIFT OF ORGAN DONATION IS THE GREATEST GIFT OF ALL
A CAMPAIGN ABOUT ORGAN DONATION

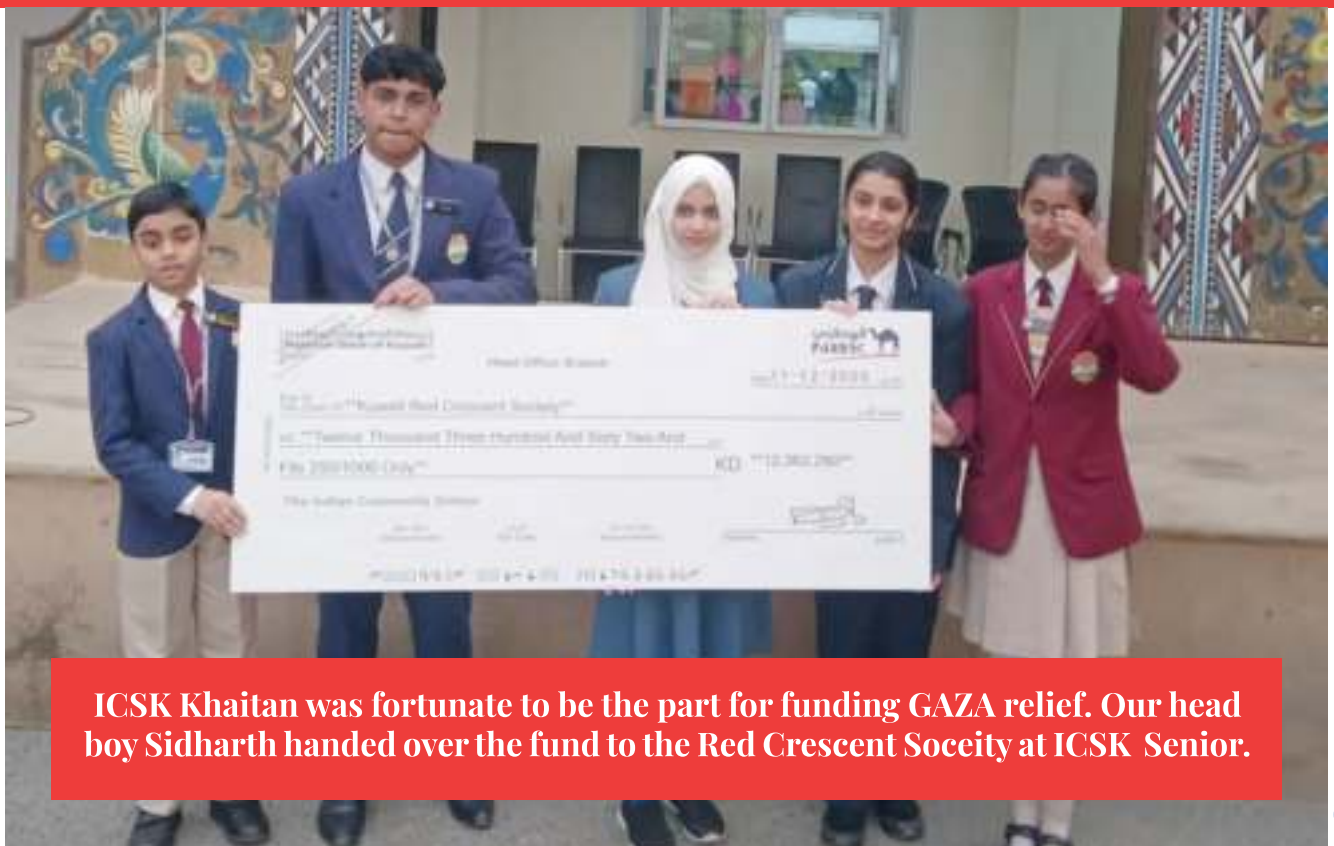

On the bright Sunday morning of 21st May 2023, our school ICSK-Khaitan had collaborated with the eminent **Green Cross Volunteers** which is an initiative for **Organ Donation** by the renowned **Rev. Fr. Davis Chiramel**, popularly known as the **Kidney Priest**, who is an Indian Catholic priest and the founder of the **Accident Care Transport Service (ACTS)** and the **Kidney Federation of India**.

The 27 Green Cross Students and Teacher Ambassadors of ICSK kick-started the 1st Phase of the campaign. The students of grade 11 from ICSK Khaitan of Science stream [PCB & PCMB] along with our Biology teacher Mrs. Remya Arun assembled at ICSK Senior Branch. The students of 5 other branches were assembled as well, along with their teachers. The respected Principal of ICSK Senior Dr. V. Binumon gave a brief overview of the campaign.

Fr. Chiramel, our inspiring Chief Guest, enlightened our minds with the knowledge of Organ donation.

“BE THE BLESSINGS THAT OTHERS NEED”

ICSK Khaitan was fortunate to be the part for funding GAZA relief. Our head boy Sidharth handed over the fund to the Red Crescent Society at ICSK Senior.

KITCO INTER - SCHOOL QUIZ COMPETITION

Inter-school quiz competition was organised by the Bengali Cultural Society on the 22nd of September 2023, Friday. Teams from all Indian schools competed for the preliminary round and the finale round, the latter consisting of many rounds including audio-visual round and competition with many guessing queries.

The much awaited time had arrived, the declaration of finale teams.

The flag bearer of ICSK Khaitan, Miss Shayma proudly waved the school flag. The ICSK Khaitan was one of the best teams to be shortlisted for the finale round. Madhav and Umar Saad stepped down to cheer their friends and to keep their spirit of participation intact. The students of ICSK Khaitan rapidly cleared the rounds. All schools participated making the competition enriching and exciting. The proud winners Ayman Mohammed and Malavika Vinod were the second runner up in this prestigious competition.

The evening brought victory for ICSK Khaitan and sowed the seeds of hope and wished that the trophy comes home every year! The proud mentors, guides our dear teachers Ms. Ummu Fathima, Ms. Sana Mukaddam, Ms. Rameesa, Ms. Anjali and Dr. Vinod prepared and accompanied teams to achieve this grand success!

My Experiences with Quizzing

Ayman Muhammed
Class VIII – B

Human Beings as social creatures, should always try to be aware of the world they live in. Quizzing itself is a world filled with adventures, twists, and turns. An atmosphere of great expectations and unpredicted downfalls. For every quizzier, whenever he walks onto the stage it is like a separate zone – filled with different topics and unbelievable facts. For me quizzing is a passion, it is something that I truly dedicate, to be frank even more than my studies.

Quizzing entered my life like a breeze, I started learning basic facts, which instilled in me a curiosity for such stuff. From the beginning, I was immersed in geography, whenever I heard about a new country it was a hobby to go to Wikipedia and read about all of the details and interesting facts. And slowly I started getting exposure to quiz competitions outside my school, and they were all wonderful experiences filled with mixed emotions. I continuously began to attend many online competitions during COVID-19 and offline ones too. The pandemic was one of the biggest blessings, which opened me to the ocean of knowledge. Anyone, who wants to be a quizzier, must read a lot of books, and cement a base in static knowledge. And then continue to add more and more bricks, by surfing the internet and getting current affairs. Every bit of knowledge is capable of changing the way the wind blows.

KITCO Quiz was a great experience for me, I was able to represent my school twice, and this was my last year as students till grade 8 can only participate. This quiz competition is based on a quite different model, along with direct questions and many connection rounds. The quiz also mainly focuses on the buzzer speed. Answering the question by hitting the buzzer, is a very difficult task as if we get a negative, it would ruin our whole morale. The buzzer is just like life, we assume that every mistake can ruin us, but in reality, if we stay strong and do not get tense, we can overcome any situation.

Quizzing as a whole, cannot be summed in just a few words. Just like organisms having taxonomy, quizzing also has classifications and divisions based upon topics. No one in this world might be able to attain all of the world's knowledge, but we could use and obtain more knowledge from different websites and books. Quizzing is a field, which anyone can conquer just with passion and devotion. Not even a single person is perfect with quizzes, everyone makes mistakes, so let us all be aware of our surroundings, try to learn new facts every day, and keep on expanding our wisdom.

From my experience Reading books improves one's writing, but gaining knowledge makes it even better.

EDU VOYAGE

A journey that challenges and inspires ICSK'S venture of exploring the world with young minds accompanied by Mrs. Manju Vinod as a in charge, the Edu voyage to the United States was an enlightening experience, with a primary focus on NASA and several key destinations. NASA and various US destinations was a holistic experience, combining scientific exploration, historical understanding, and cultural appreciation. The diverse attractions across the country left an enduring impact on our educational journey.

In a splendid endeavour to broaden horizons and foster cultural exchange, our school recently organized an international tour for students, accompanied by Mrs. Minarva Ramesh as a in charge from October 24 to 30 transcending boundaries from Kuwait to Doha and finally culminating in the enchanting destinations of Singapore and Malaysia. The journey was not just a geographical exploration, but a kaleidoscopic experience, weaving together diverse cultures, stunning landscapes, and unforgettable memories.

The international tour was not merely a physical expedition but a kaleidoscopic journey that broadened our perspectives, fostering friendships and memories that will last a lifetime. As we boarded our flights back home, carried with us the rich tapestry of experiences woven across the Lion City and the heartland of Malaysia, forever grateful for the opportunity to embark on this extraordinary adventure.

ANNUAL PICNIC 2023

The School picnic organised by Indian Community School, Kuwait for classes KG To to 12th was an absolute fun-filled activity which involved immense enthusiasm and fun, which students as well as the undertaking staff enjoyed thoroughly! Marah land, Hawally Park, Venue 65 Magic Land were some of the venues the students visited. It was scheduled on different days for the entire month of November. The buses were packed with students early morning. Great enthusiasm was to be seen in the students. The buses left the school at 8:00 am sharp. Students enjoyed the drive to the venue by playing various games like singing songs, naming world countries and guessing games.

They reached the venue at about 8.40 am. There were many rides to play on. Students immediately started exploring various rides without wasting any time. Dashing cars was the most loved game by the kids. Different kinds of train and free fall were also most enjoyed by everyone. Disco ride was also one which was enjoyed by adventurous students. After few hours, the students took a break in which they enjoyed snacks and drinks.

After break, swinging boat and high slides were the main attraction. Students enjoyed them a lot, and as the time was over, they all gathered near the entrance. Then everyone got on to their respective buses and headed to the school. The day ended with wonderful memories and having fun and enjoyment!

Do Humans Shape The Society or The Society Shapes Human ?

May Peace and Blessings of Allah be upon you.
Starting with the greatest name of Almighty Allah,
Who is Rahman and Rahim,
He is the most merciful and the most beneficial.
What he sees cannot be seen, what he creates cannot be created.

Mrs.Salma Sultana
Islamic Teacher
ICSK - Khaitan

What do you think? Does Human shapes the society or the society shapes human?

The relationship between society and individuals is a dynamic one and its often challenging to determine whether society shapes a human or human shaped society both respect and place each other in a continual set and interpreter manner. But in my opinion, human shaped society because the existence of society is the reason of human evolution. So, human can change the shape and morals of society.

In Islamic thought, the relationship between human and society is often seen as a reciprocal. Humans contribute in shaping the society through their actions, but society also plays a crucial role in shaping individuals values and behaviours. It emphasizes the importance of individual responsibility in building a righteous society guided by Islamic principles.

Certainly, Islamic teachings talks about the concept of “Tazkiyah” emphasizing the purification and development of the individual. Humans, through their actions, choices, and adherence to Islamic values, contribute to the overall well-being and moral fabric of society. The Quran and Sunnah provide guidance on personal conduct, ethics, and social responsibility, encouraging humans to embody virtues like justice, compassion, and honesty.

Conversely, society, influenced by the collective actions of its members, can impact individuals. The environment, cultural norms, and social structures play an important role in shaping humans’ character and conduct. Islamic scholars stress the importance of fostering a righteous society that supports individuals in their pursuit of virtue.

In essence, humans contribute to the societal framework through their actions, and society, in turn, moulds individuals through its values and expectations. The interconnectedness of personal and societal development is a central theme in Islamic discourse, promoting a holistic approach in building a just and virtuous community. I want to say this, Human is the power that puts the punishment of a culture, tradition, foundation, Civilization and even the society.

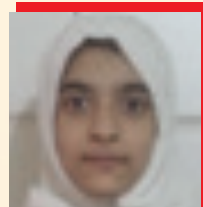

What can you do in Ramadan?

Ramadan, the month for which we wait for the whole year. This is the month in which our single deed turns to seventy deeds. Can you imagine if we do thousands of deeds in Ramadan how much will Allah payback to us? So let us move to Ramadan, what is Ramadan? Ramadan is a holy month mainly celebrated by Muslims all over the world. According to the Islamic Calendar, Ramadan is the ninth month. During the month of Ramadan, Muslims observe fasting and refrain from eating or drinking from dawn to dusk.

How can you earn more deeds in the month of Ramadan? Some

Examples are given below:

- Give a lot of charity.
- Keep all 30 fasts.
- Recite Quran.
- Look after your parents and family.
- Offer taraweeh
- Feed food to the poor.
- Pray all the 5 Salah on time.
- Wake up early and offer tahajud
- Do suhoor
- Making dua

ANSA BAIG
Class 6B

Following the above things can help you gain more and more deeds and keeps your mind busy throughout the day. Spending more of your time in ibadah is better than wasting your time by sitting simply without doing anything for the whole day. Therefore, I wish that the high spirits of Ramadan celebrations infuse your heart & Soul with happiness and prosperity Thank you and Ramadan Mubarak

BENEFITS OF SALAT IN OUR LIFE

ESHAL MANHA SHANIJ
Class 4A

FAJR: increases beauty.

ZUHR: increases income.

ASR: improves health.

MAGHRIB: releases tension.

ISHA: peaceful sleep.

PHYSICAL BENEFITS OF SALAT

Improved Body Posture, Secretion of Glands, Stretches the Body, Abs Control, Blood Flow, Improved Digestion, General Cleanliness.

MENTAL BENEFITS OF SALAT

Salah acts as a powerful tool for stress reduction, relaxation, improved concentration, emotional well-being, mindfulness, and building resilience.

Salah Calms the Soul, Generates a Feeling of Humility, Brings Us Closer to the Almighty, Gives Way to Light In Dark Times, Helps Us Stay Halal Throughout the Day.

Do you know about this?

Adallyn Diya Felix
Class: 3F

We are all aware about the Great Indian Desert present in Rajasthan called as Thar Desert.

We should be surprised to know the fact that in South-India there is a Desert present in the state of Tamil Nadu in Thoothukudi District. The desert is seen Red in colour. In Tamil Red Sand Dunes are known as Theri, that's how it is named after as Theri Desert.

The Reason behind the formation of the soil is due to South-West monsoon winds from Arabian Sea. These winds enter through Aralvaimozhi Gap. There is a large belt of Red Soil present here. These winds help in carrying soil to the desert. This is happening for years which has made the unique desert in South India.

श्रीमती वंदना इबराहम
हिंदी अध्यापिका

आज की इस दुनिया में ऐसा भी होता है,
न्यौछावर करें हम पर जो अपना सारा जीवन,
उन्हीं को ठुकराया जाता है।
बनाने के लिए हमको
खुद को मिटाया है जिन्होंने।
हँसाने के लिए हमको
खुद को रुलाया है जिन्होंने
अब वक्त है सहारा देने का उनको,
सोकर खुद गिले में
सूखे में सुलाया हमको।
बहाकर अपना खून-पसीना
हमारे पैरों पर खड़ा किया हमको।
कभी भी ना भूलना, खुदा के उस दूसरे रूप को।
जमाना कहता है माँ-बाप जिनको।।

ज्ञान और कर्म

परिश्रम ही सफलता की कुंजी है, पर परिश्रम के लिए हर कोई तैयार नहीं है, ज्ञान भी तब तक अज्ञान ही है, अगर जीवन ज्ञान अनुसार नहीं है, जीभा इक दी, हाथ दिए दो, बोलें कम और करें अधिक, रटन से ज्ञान का लाभ है सीमित, पर कर्म संवारे जीवन नित, ऊँचे बोल ना ऊँचा करते, अगर जीवन में उनका प्रसार नहीं है ज्ञान भी तब तक अज्ञान ही है...

ज्ञान है जैसे इक मील का पत्थर, चलेंगे इस पर तो पहुँच ही जाएंगे, पकड़ इसे जो-बस रहे दोहराते, तो वहीं के वहीं ही रह जाएंगे, थोड़ी देर से ही सही, पर चाँद पर हैं अब हम, और ये कोई आम समाचार नहीं है ज्ञान भी तब तक अज्ञान ही है...

ना तितली, ना मोर उड़ पाते, जो इक पंख क्षीण हो जाये, ना फुदकते बुलबुल, चिड़िया, जो इक पंख विहीन हो जायें, ऐसा ही है ज्ञान और कर्म का संगम, बिन जिसके जीवन शृंगार नहीं है ज्ञान भी तब तक अज्ञान ही है...

ज्ञान क्या है एक बात ही तो है, जो मानी तो भविष्य सुधार है होगा, कर्म में ढाली तो सर्वोत्तम, और ना मानी तो बस अंधकार ही होगा, गुरु का कर्म है बस ज्ञान बाँटना, शिष्य ना माने तो कोई उपचार नहीं है ज्ञान भी तब तक अज्ञान ही है...

भारत के वीर जवान

भारतीय जवान हमारे देश की रक्षा की सबसे बड़ी प्रणाली के रूप में जाने जाते हैं। यह देश के दुश्मनों से हमारी रक्षा करते हैं। इसलिए हमें अपने भारतीय जवानों पर गर्व और अभिमान हैं। जब भारतीय जवान वरदों में हथियार को लिए कदम मिलाकर एक साथ सीमा की ओर चलते हैं तो यह भारत की ताकत को दर्शाते हैं। भारतीय जवान अपने राष्ट्र और नागरिकों की रक्षा के प्रति हमेशा समर्पित रहते हैं।

भारतीय जवान पूरे देश को अपना परिवार समझते हैं। सभी लोगों की ईमानदारी से रक्षा करते हैं। जवानों को अपने जीवन में कितना कष्ट सहन करना पड़ता है। यह केवल जवान ही जानता है। उन्हें हर समय चौकन्ने रहना चाहिए। अनुशासन रखना एक बहुत बड़ी बात है। जवानों की एक लापरवाही देश को भारी क्षति पहुँचाती है।

भारत एक विशाल देश है जहाँ पर लगभग 130 करोड़ की जनसंख्या निवास करती है। भारत की सीमाएँ कई पड़ोसी देशों की सीमाओं से मिलती है। जहाँ से दुश्मनों और आतंकवादियों के अपने देश में घुसने का खतरा लगातार बना रहता है। इसलिए इन सीमाओं पर हमेशा भारतीय जवान पहरा देते हैं। हम सभी को भारतीय जवानों पर गर्व है।

“शेरों के पुत्र शेर जाने जाते हैं। लाखों के बीच फ़ौज़ी पहचाने जाते हैं।”

मेरे दोस्त मेरी बात सुन...

Dr. Vinod Kumar Kaushik
Hindi Teacher

मेरे दोस्त मेरी बात सुन, जो तुझ से कभी कहे नहीं,
दिल के आज एहसास सुन,
मेरे दोस्त मेरी बात सुन ।।

है जन्म अपना अलग, है धर्म अपना भी अलग,
बस एक खतरा खून का जो, वो तुझ में है और मुझ में है ।

मंदिर की घंटियाँ मेरे लिये और पाक नमाज़ तेरे लिए,
पर जिसके सजदे में सर झुका, वो तुझ में है और मुझ में है ।

घर के मंगल गीत मेरे, तेरे घर की मस्त क़व्वालियाँ,
आँख बंद कर दिखता जो, वो तुझ में है और मुझ में है ।

हाथ तेरा भी उठा और हाथ मेरा भी उठा,
पर सीने में धड़कता दिल है जो, वो तुझ में है और मुझ में है ।

लाख भागूँ तुझ से मैं और लाख भागो मुझ से तुम,
पर बीच राह में जो इंसान खड़ा, वो तुझ में है और मुझ में है ।

मैं भी दिखता हूँ खुश बहुत, तू भी दिखता मस्त है,
पर टूटा हुआ है जो आदमी, वो तुझ में है और मुझ में है ।

मेरे दर्द की ना दवा कोई, तेरे गमों का ना हिसाब भी,
पर मुसीबतों से लड़ने वाला शख्स जो, वो तुझ में है और मुझ में है ।

मेरे दोस्त मेरी बात सुन, एक पल को सब कुछ भूल जा,
दुरियों का जो दर्द है, वो तुझ में है और मुझ में है ।

Dandelions

There is this thing on the ground,
Dancing to the melody of breeze,
People wondering how perfectly
 it's shaped round,
 But do know the ease,
 It's as soft as the nature,
People forget that their mature!
Oh no! There comes the wind,
 Should I give you a hint?
 Just one snap,
Then there goes the fluffy thing to nap.

Reader a Leader

So fond of reading
So now I'm leading.
It makes me so happy
And never so nappy.
When I read classics
I'm in the world of magic.
 Each day and night
In the world of excitement.
As they say, "today a reader
tomorrow a leader"

Why does Coffee Spill out of a Cup?

You are holding a cup of coffee when
someone comes along and bumps
into you or shakes your arm, making
you spill your coffee everywhere.

“Why did you spill the coffee?”
Well because of someone bumped
into me, of course”

Wrong answer.

You spilled the coffee because it was
coffee in the cup. Whatever is inside
the cup is what will come out.

Therefore, when life comes along
and shakes you, whatever is inside
will come out.

Today work towards filling your cup
with gratitude, kindness, forgive-
ness, joy, words of affirmation to
yourself and others. gentleness and
love. Wishing you more and more
positivity in your cup.

My two days off with nature...

Nature is a creation of an unseen power, and being in nature is akin to meditation. When we pray to God, we often ask for things, but when we are in nature, we realize that there is no need to ask anything from God. All we need is peace and harmony, something that is often lacking in our daily lives.

This year, we decided to choose a picnic spot far away from the city, where there would be no distractions from gadgets, allowing us to listen to our inner voice and find tranquility. We ended up in a place called Sanghvi near Karjat, completely removed from the city. I was there with my family for two days, and it was a truly magical experience.

Due to the rainy season, nature was at the peak of its beauty. We were able to enjoy the breathtaking beauty, peace, and serenity. The melodic symphony of raindrops provided a delightful backdrop, harmonizing with the enchanting melodies emanating from the natural world. It was a pleasure to witness peafowls, walk barefoot in the garden, pluck and savor fresh fruits and reminisce about childhood days.

The beauty of nature was present everywhere. The flowing river exemplified inner beauty and strength, while the creatures in nature taught us that defensive mechanisms exist not only in humans but in all living beings. Nature treats everyone equally.

Getting sound sleep is a true gift, and we truly experienced relaxation and calmness during our time in nature. Nature communicates with us in myriad ways, but what is important is to welcome nature with open arms.

What's important is to detach ourselves from material things and immersing ourselves in nature, at least once a year. Surrendering and listen to nature, living in the present moment, listening to the rhythm of our own heartbeats, and finding relaxation are key to happiness.

“Books Are Our Best Friends”

Books are like magical treasures that take us on incredible adventures and teach us many exciting things. Just like how we have friends to play with, books are our special friends that are always there for us.

Books are different from toys or games because they don't go away or get tired. They wait for us on shelves or in the library, ready to share their wonderful stories whenever we want. Whether we are happy or feeling a little sad, books are our buddies that make our days brighter.

Books are not just stories; they are also full of interesting pictures and words that help us learn new things. They teach us about colours, numbers, and all the amazing things in the world. So, when we read books, we are not only having fun, but we are also becoming smarter!

Our books are like magic doors that open to fantastic worlds. We can visit places we've never seen, meet funny characters, and go on exciting journeys—all by reading a book! Books are our passports to imagination and wonder.

Sometimes, when we feel a bit lonely or need a friend, we can pick up a book. The characters in the stories become our friends, and their adventures help us forget our worries. Books are like a warm hug that makes us feel happy and comforted.

In conclusion, books are our best friends because they are always there to make us smile, teach us new things, and take us on amazing adventures. So, let's keep exploring the wonderful world of books and enjoy the special friendship they bring to our lives!

THE LAST LAP

A drop of tear rolled down her parched eyes,
The warmth of her hands has faded.
Her smile that kindled hearts now cold and dreary,
Her heart beat ends, ceasing life abruptly.
The silent and desolate chamber
Now echoes with roaring wails,
The crowd rushed in to glance at her one last time.
To embrace those hands, now lifeless and fragile..

There I stood in the corner watching,
I glanced over her awfully familiar visage,
The alluring display actively drew me closer,
The longer I gazed, the more I was deranged..

Unable to comprehend what I was feeling,
I walked closer in an attempt to caress,
My fingers fondled her delicate figure,
An intimacy surged in me that I failed to suppress..

Perplexed and agitated,
The desire to know her identity compounded,
I asked around frantically, but my voice inaudible,
I rushed through the hall, desperate to find traces,
And then there it was, a crumbled portrait under
the table.

I examined it desperately, the feeling of familiarity
intense,
A man and a woman with smiles appealing,
I recognized a memory which once was mine,
I perceived a face which once was mine...

Appalled and frightened,
I hurried to the corpse,
The somber body the crowd grieved for,
Once belonged to me. I bawled in horror,
My cries unheard, reality dawned, alienated,
I existed no more.

MY HERO

By Jasriya Abdulla
Class 7A

Let me ask all of you a question. How do you define a hero? First and foremost, I know you all will think of people who have some special superpowers like Spiderman and Iron Man in Avengers. My hero is none other than my mother. I define my mom as a hero because she has provided me with guidance and has always been there for me. She has also supported me in every way possible.

My mom has been with me since day one and that was when I was conceived. She has dealt with all my disasters and has seen me grow up making mistakes. Yet, she manages to find it within herself to love me and always stay close to me. My mom has rare ways to show me her love. For example, she would play around with me and act like someone my age would act. It makes me laugh so badly that I can't help but let out tears of laughter. My mom is so caring that it touched my heart every time I remember that moment. Through all the baby steps I've taken so far, my mom has been supportive of me. She's told me never to give up and never let anyone or anything stop me because I can make a change in the world and my life. I am sure one day, I will also become a role model for someone else in this world just like my mother.

“What does writing mean to you?”

By
AfraH Hajira
12-B

and the answer to that question is.....
that there is honestly no definite answer to it.

Writing can either mean everything or nothing to a person and that is totally fine. But the beauty of writing is what attracts those who wish to truly define what they feel. It does not have to necessarily be in articles or essays, it could be a mere scribble on the corner of the page, or a scribbled down thought on a tissue in a cafe. What you write does not have to be infinite, it could last just for the moment in which it is written, but the words will stay fleeting somewhere along the dull margin of your mind and the universe that lies beyond and behind. As the poet Sylvia Plath puts it, “I write only because, there is a voice within me, that will not be still.” And that is the very voice that deserves to be heard, because it holds a fragment of your identity, a part of the puzzle to your reality. Especially in this tech-driven world, one must stay true to the roots and the words. Write with an undying passion, write intense and write true to yourself, because the biggest enemy of creativity is self-doubt. So, to wrap the answer, it is what you write, that gives meaning to the words. It is you, who give meaning to the words.

NAVIGATING THE FUTURE:

The Present Generation And Beyond

The present generation finds itself standing at the crossroads showing a drastic and profound transition in various aspects which include shifts in technology, values, social activity, and global consciousness. As we witness the future and dive in to this wonderful journey, it is important for us, as the present generation to understand our responsibilities and traits and to ideate the legacy that we have accomplished for the future generations to come.

The first and foremost thing that we need to consider is the inevitable contribution of technology in the present and beyond. Within a few decades, technology has altered every aspect of human existence. Our lives have gotten simpler, more productive, and more interconnected as a result of technological advancements. However, it is interesting to note that technology has not always been a boon to the society. Despite its vast plus points, it has given birth to many undesirable effects which include invasion of privacy, cyberbullying, social isolation, reduced physical activity and many more... The increasing use of the newly developed Artificial Intelligence (AI) by Multi-national companies (MNC's) is also one among the major concerns that can affect human employment in multiple sectors. However, we must understand for a fact that with great power comes great responsibility. The present generation must grapple with the ethical implications of technology, ensuring its responsible use to foster positive societal progress.

The next topic of concern is the drastic change in climate. Not very long ago, scientist warned that the climate change can cause four to five degrees celsius of warming, giving rise to existential fears about apocalyptic futures. Climate change poses a threat to human existence and the present generation is currently battling against environmental sustainability. We need to find ways and methods to take strict actions to curb the impact of human activities on the planet. The choices we make in the present will determine the Earth's sustenance for future generations. Following eco-friendly practices is something we all should indulge in to secure our future generations.

In conclusion, as we go through the present state and predict what the future will be like, the present generation must use what's in their power to pave the way for a brighter future. The choices we make today will echo through the corridors of time and influence the future generations to come.

INDIAN NAVIGATION SYSTEM

Mr. Mathew
HOD, Computer Science
Department

NavIC (Navigation with Indian Constellation) is India's own navigation system, better than U.S, GPS (Global Positioning System) navigation system, It covers India and a region extending 1500 km around it. NavIC will provide a standard positioning system for civilian purposes and a restricted service for military use. The need for indigenous navigation satellite system arose when Indian military faced problems during the Kargil war, which was dependent on the US global positioning system (GPS). It works based on the Indian Regional Navigation Satellite System (IRNSS).

NavIC satellites use dual frequency bands (L5-band and S-band), which is why the system is relatively more accurate than GPS (uses a single band and makes compensation for error due to signal deterioration by the atmosphere). In NavIC there are currently eight IRNSS satellites in geosynchronous and geostationary orbits. Seven satellites are being used for navigation purposes and one satellite only for messaging purposes.

NavIC can reach an accuracy of up to 5-10 meters whereas GPS is generally believed to have an accuracy of up to 20m. Not just the accuracy, but NavIC is said to have a faster latch-on time, which is technically referred to as Time To First Fix (TTFF).

Mrs. Naima Ait-tahar
French teacher

La responsabilité d'un enseignant à l'école est de transmettre ses connaissances aux enfants, il fait apprendre aux élèves à lire, à écrire, et à compter...etc. mais son rôle ne se limite pas à enseigner. son rôle consiste à aider les élèves et construit avec eux une relation d'écoute et de dialogue, afin de le connaître, il suit attentivement le parcours de chaque élève ,developper une pensée creative et travailler en équipe, il doit être très adaptable et flexible dans son plan de cours et maitriser les notons fondamentales et pouvoir metre en oeuvre les démarches spécifiques.

La relation entre un élève et son enseignant est un facteur clé de la réussite scolaire.

Découvrez l'ICSK, une école florissante à Khaitan, Koweït

Mr. Mehdi Ali Khan
HOD - French

THE INDIAN COMMUNITY SCHOOL, Kuwait (ICSK) à Khaitan, , incarne l'excellence éducative dans la région. Fondée sur des principes d'innovation et d'internationalisme, cette école offre une plateforme d'apprentissage diversifiée.

Fondée en septembre 1996, l'ICSK Khaitan a prospéré en tant qu'institution éducative de premier plan. Son engagement envers l'éducation de qualité se reflète dans son corps professoral qualifié et ses installations modernes.

L'ICSK Khaitan offre un environnement propice à l'apprentissage, tandis que l'école elle-même est équipée de salles de classe interactives, de laboratoires scientifiques de pointe et de bibliothèques bien approvisionnées. Les élèves bénéficient d'un environnement stimulant qui encourage la créativité et la pensée critique.

L'ICSK Khaitan propose une gamme de programmes éducatifs allant de la maternelle au lycée, IGCSE, et aussi la licence de BBA et B.COM en collaboration avec l'institut Universal (Université de Mysore) Son programme académique est renforcé par des activités parascolaires, des clubs et des événements culturels qui enrichissent l'expérience des élèves.

L'école s'efforce également de promouvoir une vision mondiale en intégrant des perspectives internationales dans son programme. Les élèves d'ICSK Khaitan sont encouragés à développer des compétences interculturelles et une compréhension approfondie des enjeux mondiaux.

Les parents saluent L'ICSK Khaitan pour son engagement envers le développement holistique des élèves. L'accent mis sur les valeurs, le leadership et la responsabilité sociale contribue à former des individus bien équilibrés et prêts à relever les défis de l'avenir.

En conclusion, l'ICSK Khaitan, se distingue comme une école qui façonne l'avenir des générations à travers une éducation de qualité, un environnement d'apprentissage dynamique et une perspective mondiale.

EXPERIENCE WITH THE LEGEND K.J.YESUDAS!

This dates back to those years while I was doing my second year Music BA Degree in Trivandrum Women's College when I got the esteem opportunity to work with the great legend KJ YESUDAS, the breakthrough came like a surprise when I sang a concert program at Nagercoil Tamilnadu. My name was selected for the GCC Tour by the legend. I travelled extensively with my role model it was like living my dream! The most humble human being I have ever known, who took me by surprise to celebrate my birthday here in Kuwait, when Kuwait was least known to me on one of our music tours!

I have travelled to countries like Kuwait, Bahrain, Muscat, Qatar, Dubai, Sharjah and many other countries including Sri Lanka, Canada, South Africa and the entire U.S.

I got very warm and a close vibe with the entire Yesudas family. I bagged opportunities to sing in Malyalam films for the brand THARANGANI audio cassette. I was further advised by Yesudas to migrate to Chennai owing to the availability of recording studios. I got opportunities to sing for tamil, Kannada, beduga, and Hindi films apart from the Malyalam films I was singing for. Now I am finally here in Kuwait after my marriage since 16 years and working as a music teacher for ICSK KHAITAN.

Mrs. Sindhu Devi
Music Department

Dreams Don't have Gender - Chase your Dreams

The pursuit of one's aspirations should be driven by passion, not constrained by societal norms. Our journey towards success should be a testament to the idea that dreams know no gender. Whether you're a girl or a boy dreaming of a career which you like, your ambitions are uniquely yours and should be pursued with unwavering determination. Breaking free from the shackles of gender expectations is not just a personal triumph; it's a societal revolution

Remember, the pursuit of dreams is a universal language. As we encourage one another to chase our dreams, we celebrate the diversity of passions.

Chasing dreams is not a mere flight of fancy; it's a commitment to personal growth and self-discovery. It propels us forward, fostering creativity and innovation. The pursuit of dreams is an odyssey that transforms setbacks into stepping stones and failures into lessons. It teaches us to adapt, learn, and evolve.

Hard work, the silent architect of success, respects no gender distinctions. It is the laborious effort, the late nights, and the unwavering commitment that build the foundations of dreams. The path to success, regardless of gender, is paved with persistence, resilience, and the willingness to overcome obstacles.

Irrespective of your gender, the journey towards your dreams is a shared experience. So, let your aspirations soar high, for dreams are boundless and inclusive, echoing the collective spirit of those who dare to chase them.

T.K. Sharanya Devi
Academic Supervisor – Senior Secondary

LOVE FOR NATURE

In this article, I aim to shed light on a matter of great significance that touches every individual regardless of our age, background, or beliefs – environmental protection. Our environment, the very foundation of life on this planet, is under threat. It is our duty to protect it for ourselves, future generations, and all living creatures that share this beautiful Earth with us.

First and foremost, we must recognize that our environment is fragile and finite. It provides us with the air we breathe, the water we drink, and the resources we rely on. However, our actions have taken a toll on it. Pollution, deforestation, and climate change are just a few of the challenges we face. But we are not powerless; we have the means to make a difference.

In addition to transitioning to cleaner energy sources, we must also embrace sustainable practices. This includes responsible agriculture, reducing waste, and conserving water. It's essential that we support local and global efforts to protect our forests and oceans, which are vital in absorbing carbon dioxide and maintaining biodiversity.

Moreover, our daily choices play a significant role in environmental protection. Each time we recycle, reduce, and reuse, we are contributing to a healthier planet. We can make a big impact by choosing products with minimal packaging, using public transportation, or carpooling, and being mindful of our water and energy consumption. Education is another powerful tool in our environmental arsenal. By educating ourselves and others about the consequences of our actions, we can inspire change. Let's teach the younger generations about the importance of environmental protection so that they can carry the torch forward.

In conclusion, environmental protection is not a luxury; it is a necessity. The state of our environment reflects the state of our society, and it is a reflection of our values and priorities. We must act now to safeguard our planet's future. We have the knowledge, technology, and the power to make a difference. Let us commit ourselves to protect our environment, for it is a gift to us and a responsibility we owe to future generations. Together, we can create a sustainable and thriving world for all.

Thank You

Madhav Prasanth
Class 8 E

I LOVE SOCIAL SCIENCE

Social science is one of the branches of science, devoted to the study of societies and the relationship to the study of societies and the relationship among individuals within these societies. The original 'science of society' was established in the 18th century. For many people, social studies are very boring and underappreciated course but what they do not know in that the social studies course is a very versatile subject, it consists of different concepts as it was made up of different academic disciplines of social science. It tackles economics which studied how people interact within things of value; in particular, the production, distribution, and consumption of goods and services, as well as Anthropology and geography. Anthropology is study of humanity, concerned with human behaviour, human biology, and societies, in both the present and past, including past human species. Social Anthropology studies patterns of behavior, while cultural anthropology studies cultural meaning, including norms and values while geography is a field of science devoted to the study of the lands, features, inhabitants, and phenomena of the earth and planets, it is also the study of places and the relationships between people and their environments.

Geographers explore both the physical properties of Earth's surface and the human societies spread across it. Moreover, it also covers the society, the people living in it, and the way it works, which is why it includes Sociology, Psychology and Political Science. Sociology is the study of human behavior, and it refers to social behavior, society, patterns of social relationships, social interaction, and culture that surrounds everyday life.

Status of Women in Islam

Right to Education

Islam grants women the right to earn knowledge. Islam believes that 'knowledge is power'. Knowledge has the incredible potential to transform an individual's character. The proof to this claim is a saying of the prophet (peace be upon him).

“Acquisition of knowledge is binding on all muslims regardless of gender”-By an erudite scholar, ibn maja

Right to Ancestral Property

As per the muslim personal law application act, 1937 and provisions of FIKH in the Quran, there is no discrimination between the ancestral rights of men and women and both girl and boy become legal heirs of the inherited property.

Right to Work

According to Shariat, it is permissible for a woman. She is also allowed to work. Work is a right in these circumstances.

She has an ambition.

She wants to do something for the better of society.

Her family has financial needs and she has the potential to support her family's needs.

However, she has been given a warning by the Islamic Law to not engage in unlawful relations. She is also advised not to travel long distances in the absence of an immediate family member (male). This is to protect her and to provide company. The religion of Islam also grants the right to widow remarriage (The prophet's peace be upon him's first wife was a widow) Subhanallah, Allah loves his people equally but most people do not realize.

Should The Government Do More To Improve Accessibility For People With Physical Disabilities ?

Hanu Nethra
Class: VII-E

Accessibility for people with physical disabilities is an important issue that affects many individuals and their families. Although significant progress has been made in recent years, many people with disabilities still face barriers that prevent them from fully participating in the society. In light of this, there is a growing debate on whether the government should do more to improve the accessibility for the people with physical disabilities. First and foremost, it is a matter of human rights. People with disabilities make up a significant portion of the population, and their purchasing power should not be ignored. Improving accessibility and promoting physical activity, the government can help reduce healthcare costs and improve the overall health of the population. In conclusion, improving accessibility for people with physical disabilities is an important issue that the government should prioritize. It is a manner of human rights, good for the economy and can help reduce the healthcare costs. Although there are challenges that need to be addressed, with the right incentives and awareness- raising efforts, the government can make significant progress in improving accessibility and promoting inclusion for all.

The Art of Folding - Origami

The world of paper, the Japanese craft – origami. An origami craft is made of paper. Origami was invented in Japan. In Japanese, ‘ori’ means folding and ‘kami’ means paper. Usually in origami, we use glue and scissors. In origami, we should measure the length, and then cut the paper accordingly.

There are many Origami crafts like, envelope, transformer, animals, or birds but, I like transformer the most. Origami is not just an exercise for our hand but also helps us to be more creative. When I come back to my home, I always think about which origami craft I should do. My brother always becomes angry at me because I leave all the things on the table and it becomes messy. I started my origami journey when I was 6 years old. I began my craftwork with an airplane and started to learn other origamis from YouTube. I had won 1st prize for origami competition in my school. For origami crafts, we can use thin, thick or multicolor papers. So let us use our free time to do some creative artwork and make our brain active.

Sam Manekshaw

Sam Manekshaw is widely recognized as one of India's most distinguished and celebrated military leaders. He holds the distinction of being the first Indian Army officer to be promoted to the rank of Field Marshal, the highest military honor in the country. Born on April 3, 1914, in Amritsar, Punjab, he belonged to a Parsi family and had a lifelong interest in medicine. However, he joined the Indian Military Academy in Dehradun in 1932 as an act of rebellion against his father. After the partition of India in 1947, he chose to continue serving in the Indian Army and played an active role in the 1947 Indo-Pakistani War and the Hyderabad crisis. He rose through the ranks and held several crucial positions, including Director of Military Training, Commandant of the Defense Services Staff College, and General Officer Commanding of various corps and commands. In 1969, he became the Chief of the Army Staff of the Indian Army and faced many challenges, including the Sino-Indian border dispute, the Naxalite insurgency, and escalating tensions with Pakistan. He meticulously prepared the army for a potential war with Pakistan and advocated for a diplomatic and political solution. In December 1971, he led the Indian Army to a decisive victory over Pakistan, resulting in the surrender of over 90,000 Pakistani troops and the establishment of a new nation, Bangladesh.

He is recognized for his exceptional leadership and bravery and was awarded the Padma Vibhushan, India's second-highest civilian honor, in 1972. He retired from active service in 1973, following a distinguished career spanning four decades and five wars. In 1973, he was conferred with the rank of Field Marshal, the only Indian Army officer to receive this prestigious title to date. Sam Manekshaw was a legendary figure who inspired generations of soldiers and civilians alike. He was a man of integrity, wisdom, humor, and charisma, and a true patriot who loved his country and served it with honor. He was known as Sam Bahadur (Sam the Brave), the Field Marshal who played a pivotal role in creating Bangladesh.

Symbolism of colors in English literature

English is truly an art; the language is like a canvas, but instead of using paints, words are used to transport the reader into a different world. You may wonder how English has any relation with art other than metaphors?

Just like a painter who uses colours, a writer uses colours as words to create his/her art. Let's explore how colors in literature shape the mood and convey emotions.

RED:

Red symbolizes Passion, Boldness, Adventure, and Anger In the book "Harry Potter", the color red is used to describe a house "gryffindor" and the main trait of this house is Passionate, bold and adventurous.

BLUE:

Blue symbolizes Loyalty, Calm and Mystery In the book "Percy Jackson" the protagonist is related to the color blue due to his connection with the sea.

GREEN:

Green symbolizes Nature, Friendship, and Envy Think of "Diary of a Wimpy Kid" Green in this book shows Friendship and jealousy.

PURPLE:

Purple Symbolizes Magic, Uniqueness, and Ambiguity. In "Willy Wonka" there's an elevator which turns purple upon flying showing the Magic and Ambiguity of the chocolate factory.

Other colors like pink are used to show love and kindness. Even metallic colors like gold and silver are used to portray lavishness and purity respectively. To conclude, colours in English literature act as subtle narrators, infusing stories with emotion and depth, creating a vibrant tapestry that enriches the reading experience.

Overall Championship for ICSK Khaitan with 340 points

THE TEAM EXCELLENCIA

“Great works are performed not by strength, but by perseverance.”

On 12th February 2024, some of our most brilliant and enthusiastic students set off on a literary Odyssey by displaying their skills and linguistic talents through Excellencia at ICSK Senior, Salmiya. The event started at 7 AM, with the excitement and laughter of the students filling the cold morning air. All the different events went smoothly and flawlessly, with the confidence and competition making everything more enthralling. As the prize declaration came around, loud shouts and songs of celebration resounded around the auditorium as our ICSK Khaitan students bagged trophy after trophy, truly excelling in Excellencia. The day was truly an experience, one of team spirit and cooperation, of courage and compassion, and of learning from your mistakes and being determined to get to success.

Benefits of Vitamin

Vitamin A- Important for normal vision, the immune system, reproduction and growth and development.

Sources- Leafy green vegetables [kale, spinach, broccoli], orange and yellow vegetables [carrots, sweet potatoes, pumpkin and other winter squash, summer squash], tomatoes, red bell pepper, cantaloupe, mango, beef liver, fish oils, milk, eggs.

Vitamin B-Maintains good health and well being. It has a direct impact on your energy levels, brain function and cell metabolism .Vitamin B complex help prevent injections and help support or promote cell health.

Sources- Meat, fish, milk, cheese, eggs, some fortified breakfast cereals.

Vitamin C – It is also known as ascorbic acid. It has several important functions . These include helping to protect cells and keeping them healthy, maintaining healthy skin, blood vessels, bones and cartilage.

Sources-Citrus fruit, such as orange and orange juice, peppers, strawberries, blackcurrants, broccoli, Brussels sprouts, potatoes.

Vitamin D-It is a fat-soluble vitamin that has long been known to help the body absorb and retain calcium and phosphorus both are critical for building bone. Also laboratory studies show that vitamin D can reduce cancer cell growth, help control infections and reduce inflammation.

Sources- salmon, mackerel, sardines, egg, red meat and liver.

Vitamin E- It is a nutrient that's important to our vision, reproduction and the health of your blood, brain and skin. Vitamin E also has antioxidant properties.

Sources- wheat germ oil, sunflower, safflower and soybean oil, sunflower seed, almonds, peanuts, peanut butter, beet greens, collard green, spinach, pumpkin, red bell pepper.

Vitamin K- It helps to make various proteins that are needed for blood clotting and the building of bones. Prothrombin is a vitamin K- dependent protein directly involved with blood clotting. Osteocalcin is another protein that requires vitamin K to produce healthy bone tissue.

Sources- phylloquinone, green leafy vegetables including collard and turnip greens, kale, spinach, broccoli, brussels sprouts, cabbage, lettuces, soybeans and canola oil, menaquinones, natto [fermented soybeans] smaller amounts in meat, cheese and eggs.

Unveiling the Microbiome: A Closer Look at Health and wellness

Intro:

The human microbiome a substantial neighborhood of microorganisms staying in our bodies plays a critical function in keeping general wellness. Amongst its numerous environments the intestine microbiome making up trillions of microorganisms, fungus plus infections, has actually become an essential gamer in the complex equilibrium of our health.

The Gut Microbiome:

Diverseness within the intestine microbiome is crucial cultivating a symbiotic connection in between host as well as microorganisms. This equilibrium affects food digestion, nutrient absorption coupled with body immune system guideline. A disruption in this balance, frequently referred to as dysbiosis has actually been connected to different wellness concerns, consisting of inflammatory bowel illness, allergic reactions coupled with metabolic conditions.

Impact on Digestive Health:

The microbiome help in damaging down facility carbs creating important vitamins along with metabolizing particular substances. Inequalities in the digestive tract vegetation can cause gastrointestinal pain short-tempered digestive tract disorder (IBS) as well as various other stomach problems.

Body Immune System Modulation:

A harmonious intestine microbiome adds to a durable body immune system. Valuable germs in the digestive tract aid educate body immune system cells, safeguarding versus microorganisms and also minimizing the danger of autoimmune conditions.

Mind-Gut Connection:

Recent researches discover the link in between the intestine as well as the mind highlighting the duty of the microbiome in psychological wellness. The gut-brain axis a two-way interaction system recommends that disruptions in intestine wellness might add to state of mind conditions, stress and anxiety as well as also neurological problems.

Variables Influencing the Microbiome:

Diet regimen, way of life, prescription antibiotics as well as anxiety greatly influence the intestine microbiome. A diet regimen abundant in fiber advertises microbial variety while prescription antibiotics, though crucial for dealing with infections, can interfere with the fragile equilibrium of the microbiome.

Approaches for Gut Health:

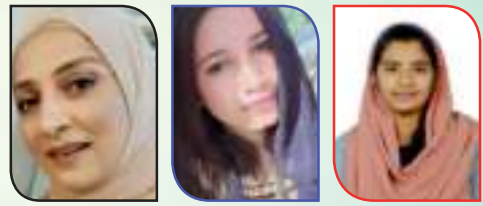

Keeping a varied along with well balanced diet plan, integrating probiotics, prebiotics as well as fermented foods, can sustain a healthy and balanced digestive tract. Way of life options such as normal workout together with stress and anxiety administration likewise play an essential function in protecting microbiome balance.

Final thought:

Recognizing the detailed partnership in between the microbiome as well as digestive tract wellness opens up opportunities for tailored techniques to health. Accepting techniques that support along with keep a prospering intestine microbiome might hold the essential to total health as well as health.

PSYCHO

PSYCHOLOGY DEPARTMENT

Lubna Asif Sabha Sheikh Nehla. S

The School Psychology Department at ICSK Khaitan has been actively involved in promoting the holistic development and well-being of our students. Through a range of workshops and interventions, the department aims to address various challenges faced by students and provide them with the necessary support to thrive academically, emotionally, and socially. The School Psychology Department has been actively engaged in organizing a series of workshops aimed at providing students with essential guidance and support in various aspects of their personal and academic lives. One of the key areas of focus has been career counseling sessions, where students are allowed to explore different career paths, identify their strengths and interests, and receive guidance on future academic and professional choices. These workshops have proven to be instrumental in helping students make informed decisions about their future.

Activities and Workshops:

Career Counselling Sessions: The department has organized several workshops focusing on career exploration and guidance. These sessions aim to assist students in identifying their strengths, interests, and career aspirations. Through interactive activities and discussions, students are provided with insights into various career paths and offered guidance on educational and vocational opportunities.

Grooming Workshops: Recognizing the importance of personal grooming and presentation skills, the department has conducted grooming workshops. These sessions cover topics such as personal hygiene, dressing etiquette, and effective communication. By instilling confidence and enhancing self-image, these workshops contribute to the overall self-development of students.

Addressing Mental Health Issues: Mental health awareness and support are prioritized within the department. Workshops and seminars are organized to address issues such as mental abuse, stress management, and emotional well-being. Through these initiatives, students are encouraged to seek help when needed and are provided with coping strategies to navigate challenges effectively.

Managing Technology Usage: In an increasingly digital world, the department recognizes the importance of educating students about responsible gadget usage. Workshops focusing on the impact of excessive screen time, cyberbullying, and online safety are conducted to promote healthy technology habits among students.

Puberty Education: The department acknowledges the significance of providing students with accurate information about puberty and sexual health. Workshops are designed to facilitate open discussions about physical changes, reproductive health, and relationships. By fostering a supportive and informative environment, students are empowered to navigate this period of transition with confidence and knowledge.

Promoting Moral Values: Moral and ethical development is integrated into the department's initiatives. Through discussions, role-playing activities, and storytelling sessions, students are encouraged to reflect on values such as integrity, empathy, and respect for others. By nurturing a sense of moral responsibility, the department aims to cultivate well-rounded individuals who contribute positively to society.

Conclusion:

The School Psychology Department at ICSK Khaitan with its dedicated trio, Ms. Sabha Sheikh, Ms. Nehla .S. and Ms. Lubna Asif remains committed to supporting the holistic development of students by addressing a diverse range of challenges and promoting personal growth. Through engaging workshops and interventions, the department continues to empower students with the skills, knowledge, and values necessary for success in both academic and personal spheres.

Cleanliness and Hygiene

Faisal Tausif
Class 6 D

From morning until I go to bed,
I keep myself neat and clean,
Which makes me happy, healthy and cool,
And maintain my hygiene.
I use toothpaste and brush my teeth,
I take a bath with soap and look smart,
I then wear clean uniform and shoes,
That is why I am teachers pet.
I come back to home and change my clothes,
Wash my hands, feet and toes,
Then I have my lunch and make my tummy full,
To make my mamma happy and chill.
I keep my books and toys in place,
Then I make my bed tidy and straight,
Now comes the time to sleep,
This is how I stay clean.

Scholars of Tomorrow

In classrooms filled with youthful dreams,
Students learn and grow, it seems.
With books and pens, they strive to find,
The knowledge that expands their mind.

They ask questions, seek to know,
In the classroom's steady flow.
Each one unique, with talents rare,
In their hearts, a world to bear.

They face challenges, both big and small,
Yet with determination, they stand tall.
For in their hearts, a fire burns bright,
To chase their goals, to reach the height.

In lecture halls and libraries so vast,
They study hard, from first to last.
With hope and vision, they pursue,
A future that's bright and dreams come true.

So here's to students, young and bold,
Whose stories are waiting to be told.
In their journey of learning and grace,
They'll make the world a better place.

Mrs. Sana Faisal
Mukaddam
English Teacher

Man-Made Disasters

Man-made disasters that could last longer due to our recklessness, negligence or intent that just couldn't make us content. Crime and thefts, for some fortune. We know it isn't the correct tune and is only done by few which isn't something new. Explosions and nuclear blasts. That happens very fast. Because of incautiousness. For what? More Power for conflict?

Drowning and chemical spills, caused unintended. And we don't wanna see it tinted. Because that would be sorrow. And something no one borrows. This isn't something like selection. But rather there should be some solution. And that is to think ahead of smarter. To get the best answer.

Bashshar Ahmed Basheer
Class: IG-2

Cool Math Trick!

STEP 1: Think of a number

STEP 2: Multiply it by 3

STEP 3: Add 6

STEP 4: Divide by 3.

STEP 5: Subtract the number chosen in Step 1 from your answer in Step 4.

And the **ANSWER IS**

Mohammed Yahya Anwar
Class -6 section-A

Principal

Nasreen Hajira
8-D

He finds himself in learning halls, strong and wise.

The principal always keeps, careful eyes.

Guiding students on paths unknown,

A mighty leader, an excellent teacher,
embracing, like a guiding star.

In their possession they have the school's memoir.

Both discipline and warmth in equal measure,

The role of a principal, an enduring treasure.

In the face of challenges, they stay tall.

Heart of learning, the principal's call.

Inspiring minds, shaping the youth,

In search of knowledge, they are truths.

An Ideal Student

An Ideal Student is the one who becomes an inspiration for every other student. He is good in all the fields like studies, sports, arts, music, dance, etc. He can maintain a balance between studies and other extra-curricular activities. It is not necessary that he should be good at every field but it is important that he is an excellent student who is very good in his studies so that he becomes an ideal student for everyone.

For becoming a successful person, we have to overcome many difficulties in our life. How to become an ideal student? Well, we can become an ideal student by studying sincerely and making a great effort to achieve our goal. Every time we fail, we should not give up as we know "Failure is a stepping stone towards success". Even if we fail every time, we should try harder and put more effort than the previous time, we should not give up and lose hope. We should try to do our best so that one day we can reach our goal. It is not bad if we fail as failure teaches us lessons, we should learn from our mistakes and experience so that we don't do the same mistake again.

An ideal student always encourages everyone and he is ideal for everyone. It is not important to be an ideal student for everyone, rather it is important to achieve the goal of your life no matter what difficulties you face don't lose hope. Always have faith in yourself that you can do it. Even if other people make fun of, tease you, ignore them and focus on your goal wholeheartedly. This will automatically make you an ideal student for everyone.

Everyone will be self-independent like you, they will learn from you and will try to be like you. Being an ideal student for everyone is not so easy. You have to help them, don't let them lose hope and make them like you or better than you. You have to be their inspiration and never let them down. No matter what, always be with them and encourage them and one day you can be an ideal student for everyone.

LIBERATION DAY CELEBRATION

Colour theme of the national flag of Kuwait was well abided by students who were seen in wonderful bright attires the day started with the special live assembly where in students participated with equal fervour and they also performed dialects in arabic which was
The highlight of the day!

Students shared tiffins and flags of their foster country kuwait with high amount of exuberance .

Students were seen decorating the school corridor with the Kuwait flags and hand made decorations. School Principal Mr.K.G.Shirsath, Vice Principal Ms.Sushmeeta Prakash and everyone was seen participating in the national day celebration with equal zeal and zest like the students!

MY EXPERIENCE ON THE HARVARD MODEL CONGRESS (2024)

The Harvard Model Congress –Middle East, held in Dubai was an extraordinary experience that exceeded all of my expectations. A team of six students represented The Indian Community School Kuwait (ICSK), as the Council Leadership Academy, consisting of four delegates from ICSK Senior and one delegate each from ICSK Amman and ICSK Khaitan. Our journey was guided by Ms. Lubna Sayed, HOD, French at ICSK Senior, who ensured that every aspect of our trip was taken care of throughout the conference. Her guidance and support were instrumental in our overall experience.

Though I was well prepared for the conference, I was a bit apprehensive. However, from the moment I stepped foot into the conference venue, I was enveloped in an atmosphere of intellectual stimulation and a palpable sense of excitement. The HMC provided a unique platform for individuals from various backgrounds to come together, share ideas, and engage in thought-provoking discussions.

First and foremost, the caliber of speakers and panelists at HMC was simply outstanding. We were given the opportunity to attend a Q & A session, where experts from various fields and industries shared their knowledge, insights, and experiences, leaving us all in awe. Their thought-provoking speeches and discussions not only broadened my horizons but also inspired me to think critically and creatively. We were provided options to attend various educational seminars. The opportunity to learn directly from such accomplished individuals was invaluable and truly a highlight of the conference.

Moreover, the diversity of attendees at HMC was remarkable. Meeting fellow delegates from different countries and cultures was a truly enriching experience. Engaging in lively debates and discussions with individuals who brought unique perspectives and backgrounds to the table broadened my understanding of global issues and fostered a spirit of cooperation and collaboration. The networking opportunities were unparalleled, allowing me to forge connections with like-minded individuals who share a passion for making a positive impact in the world.

Overall, attending the Harvard Model Congress in Dubai was an unforgettable experience on all of us that left a lasting impact on both our personal and professional growth. The knowledge gained, connections made, and memories created will undoubtedly shape our future endeavors. We were immensely grateful for the opportunity granted to be a part of this prestigious conference and would certainly recommend it to anyone seeking to expand their horizons and engage in meaningful discussions on a global platform.

Class XII B

ICSK KHAITAN BIDS FAREWELL TO CLASS XII WITH AASHIRVAAD

ICSK Khaitan bid a warm farewell to its Class XII batch of 2023-24 through a poignant blessing ceremony held at the school's auditorium on February 15, 2024. The event was not just a symbolic end to their school days but also a heartfelt send-off as they stepped into the threshold of UG era. The ceremony commenced with a time-honored tradition—the lighting of the lamp—by esteemed chief guest Ms. Noura Ayman Boodai, Vice President, Kuwait Technical College. This solemn act signified the spreading of knowledge, a beacon guiding the graduates into the next phase of their lives. The auspicious occasion was also graced with the benign presence of Dr. Sheena Varghese, faculty from Kuwait Technical College, Mr. Shaik Abdul Rahiman, Hon. Chairman to the Board of Trustees, ICSK, Mr. Amer Mohammed, Hon. Secretary to the Board of Trustees, Mr. S.N. Raju, Hon. Treasurer, ICSK Principals of other ICSK schools, Dr. V. Binumon, Mr. Rajesh Nair and Ms. C. Sheeja, Vice Principals and parents of the graduating students.

Principal Mr. K. Gangadhar welcomed the gathering heartily with offering of plants to all guests and offered his last official piece of advice to the students to take care of their health well and continue to live in the pursuit of knowledge saying these two, health and knowledge, as the best assets in life.

Ms. Noura's address was a blend of wisdom and encouragement. Drawing inspiration from notable figures like M.A. Yusuff Ali and Sundar Pichai, she urged the students to embrace challenges with resilience and apply the lessons learned within the school's nurturing environment to carve their path to success. Special accolades were bestowed upon outstanding students, recognizing their achievements in academics, sports, arts, leadership, and attendance. These acknowledgments served not only as a testament to their hard work but also as motivation for their peers. The awarded were presented with the special gifts from K-Tech by Ms. Noura.

The ceremony wasn't just about formalities; it was a journey down memory lane. Representatives from different academic streams reminisced about their shared experiences, expressing gratitude to their teachers and offering heartfelt advice to those following in their footsteps.

Entertainment intertwined with inspiration, as students showcased their talents through dances, songs, and speeches, leaving an indelible mark on everyone present. Vice Principal Mrs. Sushmeeta Prakash's words resonated deeply, instilling a sense of purpose and responsibility in the departing graduates. The lighting of candles symbolized the students' commitment to carry forward the school's legacy of enlightenment, with each flicker representing a vow to dispel ignorance and uphold the motto "From Darkness to Light."

As the ceremony drew to a close, Mrs. Sharanya Devi Sr., Secondary Supervisor, extended gratitude to all attendees, encapsulating the collective sentiment of appreciation and hope for the future. A photo session captured the final moments of togetherness, marking the end of a chapter filled with cherished memories and the beginning of a new adventure.

With hearts brimming with nostalgia and anticipation, the Class XII students bid adieu to their alma mater, armed with knowledge, skills, and the resolve to make a positive impact on the world. The function ended with sumptuous buffet dinner allowing the students to cherish some enjoyable moments with their friends at last to last forever!

UKG GRADUATION DAY

It was a bright morning when parents were seen streaming inside ICSK Khaitan school auditorium eagerly waiting to see their young champions attain their graduation. The day started with extending a warm welcome to the parents and the Chief guest for the event. The chief guest MS. Khadija Rangwala Operation Manager at en.v a Kuwait-based non-profit organisation was a vibrant personality who guided the parents with essential parenting tips and cheered the young graduates all throughout the graduation ceremony. The esteemed Principal Mr.K.G.Shirsath honoured and felicitated the chief guest and also rendered a warm speech to the parents present in the auditorium.

The esteemed chief guest Ms. Khadija Rangwala and Principal Mr.K.G.Shirsath honoured the graduates of Ukg and also gave honours to the rising stars of Lkg and Ukg.

There were many colourful events by students of Ukg to offer renditions to parents and to teachers by students ,which touched the hearts of the audience in a very big way! It was indeed a nostalgic moment for teachers and for parents.Students were seen performing dances and a wonderful song rendition which was indeed a melodious performance which was the highlight of the day..

The teachers had put in their best efforts along with their tiny students to make this event a memorable one indeed!

The day ended with Vote of Thanks by honourable Vice Principal Mrs.Sushmita Prakash. Happy faces of parents and their tiny champions was the reason that made the graduation ceremony a grand success!

ADVANTAGES OF IGCSE CURRICULUM

Recognition:

IGCSE is recognized by Universities, employers, and educational institutions around the world. It is accepted as an entry requirement by many Universities and colleges.
